SURFACING THE COLORS OF NATURE

Who we are...

At SilkarStone, we are proud to be a leading stone manufacturer, producing a variety of natural stones, mosaics, slabs, and tiles, and exporting products to over 35 countries across the globe.

Our company was established over thirty years ago, owns multiple quarries in Türkiye and Greece also marble, mosaic and laminated stone panel factory in Türkiye. This vertical integration allows product quality to be controlled from start to finish while providing unparalleled service to clients planning complex architectural projects. With a headquarter in Istanbul, as well as joint ventures in China and the United States, we are able to assist with projects all over the world, providing quality custom products for large-scale bespoke projects.

Through our sister company AKDO Intertrade, exclusive products are distributed to more than 350 dealers under the "AKDO" brand in the luxury tile and stone market of the United States.

Silkar is one of the largest mosaic manufacturers in the world, with exclusive designs and an impressive palette of natural stone colors. Our ability to produce incredible detailed custom mosaics and exclusive mosaic tiles make Silkar a unique company in the design world.

In addition to offering slabs, mosaics, and cut-to-size tile, we continually invest in innovation beyond traditional stone products. Because of investments in new technologies such as lightweight laminated stone panels, Silkar has experienced great success within industries such as luxury yachting, furniture, interior, and exterior wall cladding, and more.

After working with mother nature's product for so long. We care our environment and climate change. Thanks to our solar energy and waste management systems. To date, Silkar continues to set standards in the natural stone industry with sustainable manufacturing. As a result of EPD (Environmental Product Declarations) studies, we have calculated our environmental impact within the complete life cycle for nine products according to ISO 14044 standard and published third-party approved statements. Silkar has EN ISO 9001 Quality Management System, EN ISO 14001 Environmental Management System and ISO 45001 Occupational Health & Safety Management System Certifications.

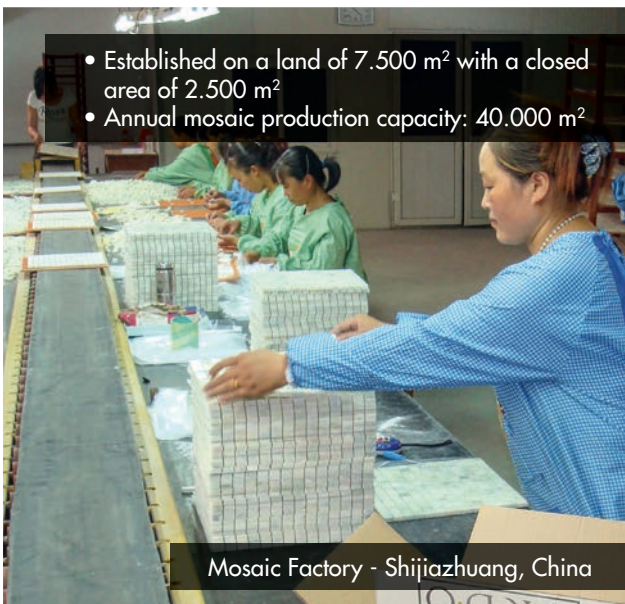

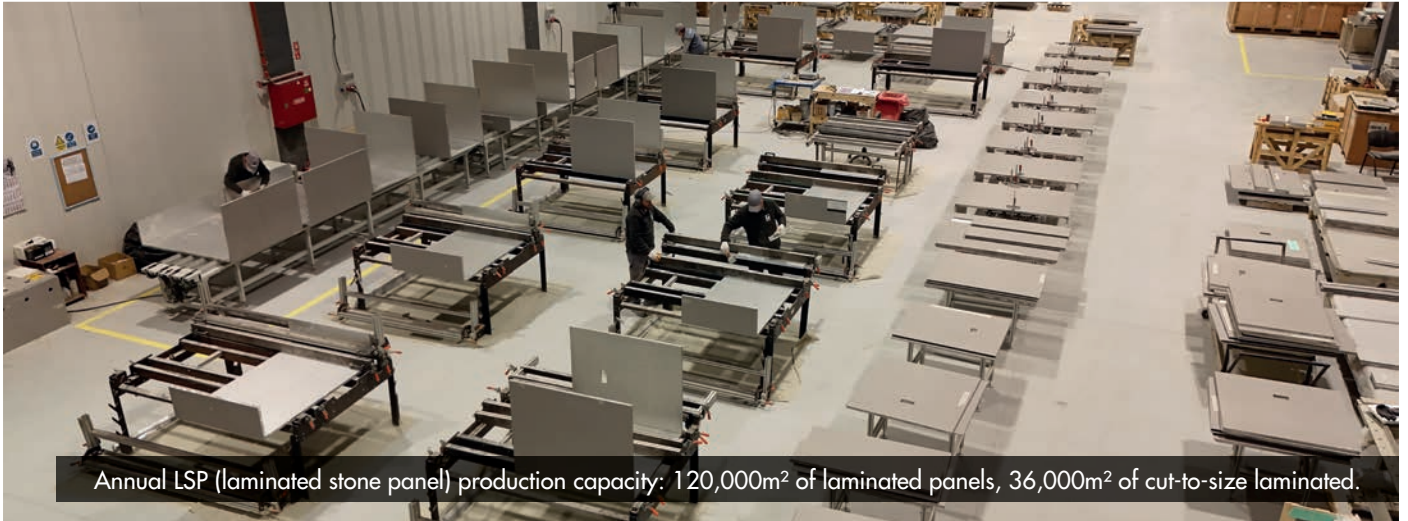

We hope to be your solution partner in the natural stone business. Allow us to show you why SilkarStone has become an international leader in the natural stone industry.

Sincerely yours,

Factories
